IN CASE OF FIRE

Leave the building by the nearest safe exit, either the fire door in the kitchen or the main door which has a thumb lock, you do not need a key to get out.

Walk between the building and the black bollards, then between the walls until you reach the grass on your left.

From upstairs use the fire escape from the Hornblower room to the garden or make your way downstairs, whichever is the safest.

From the garden, leave by the gate, the key for the gate is under a stone on the left as you look at the gate. Please familiarise yourself with this route and the key hiding place. Follow the black bollards to the grass as above.
